Bonnie:

Dennis' cell number is 304-280-7500. He could direct you to the FEMA person on duty at the time of your call.

If needed what is the best way to contact Dennis Matlock? -I am NOT saying we will. Or the on site FEMA director who 'tasked' EPA.

Many thanks!

I would like to speak with the EPA on-scene coordinator for the incident.

Hi Ken,

David sent me an email letting me know that you called about the spill in Charleston and requested to speak with someone. Here is EPA's statement about the agency's involvement thus far. Given our limited role at this point and the fact that the state has the lead for the response, we are deferring to WV DEP officials to speak or provide more information about what's happening on the ground. The state DEP contact is Tom Aluise at 304-926-0499, Ext. 1338 or by email at Thomas.J.Aluise@wv.gov

— Terri

EPA Statement

EPA is closely monitoring the chemical spill in Charleston and is working closely with FEMA and other federal partners who are responding to the incident. The Agency has deployed on-scene coordinators to assist with water sampling and stands ready to offer additional assistance to the State of West Virginia, who is leading the response on the spill.

Terri A. White

Acting Deputy Director

Office of Public Affairs/Office of State and Congressional Relations

EPA Region 3
